**INFORMATION DISCLOSURE STATEMENT**

In accordance with the provisions of 37 CFR §1.56, Applicant requests that citation and examination of the references listed on Form PTO-1449, copies of which are enclosed herewith in accordance with 37 CFR §1.98, be made during the course of examination of the above-identified application for United States Patent.

Document AM, German DE 197 13 164 A1 relates to a radio communication system for mobile telephone transmissions which has a base station with a controller to detect free communication time slots on a carrier and to establish communication.

Document AN, German DE 196 25 142 A1 relates to a channel allocation method especially for channels with different capacities in a hybrid system, simulating broadband channel structure using narrowband channel structures depending on the quantity of messages to be transmitted.

Applicant respectfully submits that the claimed invention is distinguishable and non-obvious over the enclosed references, taken singly or in combination.

Accordingly, early consideration and allowance of the application, including the claims, are hereby requested.

Respectfully Submitted,

(Reg. No. 39,056)
